

Satchi Shah

After reading French and German at university, I trained to be a Chartered Accountant in the corporate tax department of PWC. I currently work as a local accountant and source, and manage, investments in property and start-ups.

I am vice chair of the management committee, chair of the finance committee and safeguarding governor.

With three primary school age children, I have a keen interest in learning and education and hope that with the other members of the management committee I can help to support (and challenge) the head and the school not just with my finance hat on, but also, with my parent and enthusiast hats on! I hope that this in turn will filter through to a well-run school for parents and pupils.

I am a huge board games enthusiast and the latest games I have been enjoying are Puerto Rico, Stone Age and Terra Mystica. I love walking, playing tennis and trying to learn anything new that sparks my interest- I have now been trying to learn Romanian for a couple of years!
